Supermaster TV remote control 1:1

General information

This programmable remote control is a 1 on 1 replacement for any original TV remote control. The right code, that replaces every single function of the original remote control, is always available in a continuously updated database. There is no risk of the programmable remote control becoming obsolete as it can be reprogrammed time after time.

To upload the codes to the remote control, the König Programming Cable (artnr. KN-MASTERCABLE) is needed.

Made by Ruwido

Specifications

Batteries:	2x R3 (AAA)
